Replicable Zine Library

I make portable zine libraries. They each fit a chosen topic & are designed to be replicated easily. I can be commissioned through my art project ***Pretzel's Son***

Below is a link to a few of my favorite zines.

Some pdfs might not be in exactly zine format & you may have to do some tinkering in a program that allows you to choose the “booklet” setting before printing. Typically, I can do this with Adobe PDF Reader.

Make a mini zine

Supplies:

sheet of letter paper

anything used in collage making

Fold a sheet of paper in 8 parts. In the pdf below, you'll see which of the parts is your front & back page. Draw or write whatever you'd like. Scan it when finished to make more. Idk, ask me to hang out while you make it if you want.

Managing Pain

I'm available to talk about managing pain in front of small groups of people. Here is what I talked about last time.

Chumbawamba fan memes sticker sheet

I've spent some time creating meme-style images of Chumbawamba lyrics from some of my favorite songs off of their discography. Here are six of those pieces that you can print onto a sheet of sticker or magnet paper- or just wheatpaste them somewhere.

I use paper that I can find in store & simple at home printers to print my stickers. It's also best to laminate them as well.
